Collar Release Portfolio Cover Sheet

This file contains a collection of reference manuals for the Telonics Collar Release devices. Brief descriptions are given below for each. To open a specific reference manual, click on the corresponding icon in the Adobe Acrobat Reader navigation pane. Each manual can be displayed, searched, or printed like any other PDF document.

CR-2a

- Size: approximately 2” x 1.7” x 0.6”.
- Weight: 50 g.
- For use on 2” and wider collars.
- Release is specified by date and time.
- Programmed by Collar Release Programmer (BCP-2) using CN006799-001 adapter.
- Color: black.
- Discontinued model – for reference only.

CR-5

- Size: approximately 2” x 1.7” x 0.6”.
- Weight: 50 g.
- For use on 2” and wider collars.
- Release is specified by date and time (available on both CR-5A and CR-5B).
- Remote release capable when paired with Telonics TGW-4x77-4 and TGW-4x78-4 GPS-Iridium collars (available on CR-5B only).
- Programmed by Telonics Product Programmer (TPP) using CN006799-001 adapter.
- Color: black (CR-5A), brown (CR-5B).

CR-7

- Size: approximately 1.5” x 1.5” x 0.7”.
- Weight: 35 g.
- For use on 1.5” wide collars.
- Release is specified by date and time (available on both CR-7A and CR-7B).
- Remote release capable when paired with Telonics TGW-4x77-4 and TGW-4x78-4 GPS-Iridium collars (available on CR-7B only).
- Programmed by Telonics Product Programmer (TPP) using CN009813-001 adapter.
- Color: black.
